

FAQ - Testing Consent & Test Release Authorization

1) What is the Testing Consent?

Consent is commonly provided prior to any procedure/test undergone by an individual. The consent enables you to decide which treatment you do or do not want to receive.

2) What is the Test Release Authorization?

The Authorization form allows CHLA to perform and facilitate certain contact tracing activities.

3) Why is CHLA starting this now?

As testing will likely continue for some time, we are formalizing certain processes for the sake of consistency and clarity.
